

# What's New for the 2022 CFC Charity Application Process

Thank you for interest in the 2022 Combined Federal Campaign (CFC). Your work empowers and inspires the generosity of the federal community, and together, we can have an even greater impact.

## Late Deadline and Fees

- The normal application deadline remains Jan 31, but a new LATE deadline of Feb 28 has been added **(Module 2)**.
- The application fees for applications submitted by Jan 31 remain unchanged from 2020, but application fees increase for late applications submitted from Feb 1 – Feb 28 **(Module 2)**.
- Like the application deadlines and fees, the listing deadlines and fees have changed to allow for a late listing period **(Module 11)**.

## Areas of Service

- The description of the Areas of Service has been broken out into five separate fields:
  - What
  - How
  - Who
  - Where
  - When (Select start and end date of services provided in the pop-up calendar.)
- A total of 256-character limit applies to the first four fields combined.
- These changes help charities supply the detailed information needed to be approved **(Module 5)**.

## Financial Statements

- Step 7 of the application has a few changes requiring charities upload financial statements and then enter the "Fiscal Period End Date" **(Module 7)**.

## IRS Form 990

- Step 8 requires uploaded tax documents, fiscal period end date, accounting method used, and allows an officer of the organization to electronically "sign" the documents **(Module 8)**.

## Advantages of CFC Participation

- Reach millions of potential federal donors.
- Steady source of unrestricted funds.
- Track your pledged donations.
- Federal employees can pledge volunteer hours in addition to dollars.
- We look forward to seeing you during the 2022 CFC!

**Apply before Jan. 31 to pay a lower application fee!**
